- **Men's SF 2** - Gavin Buggy (Wex) v Gary McConnell (Meath) @4:30pm

Key rule changes FYI

Timeouts.

Rule 4.10 A (1): Timeouts must not exceed 60 seconds

Key Change Explained: Previously, timeouts in All-Ireland Championship matches were of max 30 second duration. Going forward, all timeouts in Irish Handball will be of max 60 second duration.

(2) 60x30: • Timeouts are not permitted in the 60x30 code, except for the Golden Masters grade and above, in which case timeouts should not exceed 60 seconds. • Three timeouts are allowed each side per 21-point game. • Two timeouts are allowed per 15-point or 11-point game. • Timeouts may be called consecutively.

Dead Ball Hinders

Rule 4.7 A (2): Ball hits Opponent.

When a returned ball touches an opponent on the fly before hitting the front wall. However, if the shot obviously would not have reached the front wall on the fly, in the referee's opinion, the player who is hit by the shot will be awarded the rally.

Key Change Explained: Previously during Irish Championship play, if a ball touched an opponent on the fly before hitting the front wall, it was an automatic hinder. This is no longer an automatic call.
